Box Quantity	5

AS 7970 2 Hook

A lever operated multipoint lock, AS 7970 features 2 hardened steel hooks, a reversible latch and an anti-saw deadbolt as standard and is suitable for many applications. In it's basic form it is a standard residential door lock, with shootbolts top and bottom it is an enhanced security lock for residential doors, and through the addition of shootbolts top and bottom it can be used as the master door lock on a pair of french doors.

- Suits standard 92mm Pz handles
- Twin hardened steel hooks for security
- Lever/Lever operation
- Various backset options available
- Option of adding shootbolts top & bottom for high security residential or french doors
- Full french door suite available within the range, including slave door lock with adjustable striker
