## Evolution One Piece Striker

Mila estimate that one-piece strikers can improve production times by up to 30% when compared to traditional separate strikers. The Evolution range of one-piece strikers and packers are designed to speed fabrication, enhance security and improve the overall aesthetic appearance of a finished door.

The Evolution system works through a combination of a steel strikers designed to suit various Mila door locks and twist clip profile related packers. Packers are available to suit most major profile systems.

The Evolution range of strikers feature:

- Full length steel striker
- Unique "C" section track and twist clip packers - interference fit, stops packers falling out and speeds fabrication
- Allen key adjustable roller cam and deadbolt receivers
- Fixing holes on striker faceplate - for through fixing on site - grommets supplied
- Pre-fitted end caps to further enhance aesthetics

### Guarantees & Accreditations
