Mila Master PL13 2ER 2 Hook, 2 Pin, 4 Roller

The Mila Master PL13 2ER for residential doors features two independent upward auto-locking hooks while anti-lift pins engage when the hooks are thrown to provide enhanced security. Four pre-compression roller cams in the optimum positions at the top and bottom of the door, providing enhanced sealing.

- 2 Upward locking hooks
- 2 Anti-lift pins automatically engage when hooks are operated to provide enhanced security
- 4 Adjustable roller cams for enhanced sealing and compression, travel before hooks to ensure smooth operation
- Secured by Design licenced product

Strikers options

:

- Individual centre latch & dead bolt striker, 2 x combined hook, pin and roller cam strikers
- Or
- Standard one piece striker
- Or
- Enhanced one piece striker supplied with apertures for through fixing of frame to brickwork.
