

Meet NORA

NORA stands for...

Navision Online Response Automation

Why use NORA?

NORA will enable you to place orders with us easily and accurately.

How does NORA work?

Your Mila sales contact will send you a NORA Order Form in an easy-to-use Excel spreadsheet format which will list your most recently ordered products. Simply complete the form by entering the quantities of each product which you require and email it back to us.

Where do I send it to?

We've set up a dedicated email address nora@mila.co.uk

What should I put in email subject box?

Please write 'Nora-Order' in the subject box to enable NORA to process your order.

NORA notification

When you have emailed your completed Order Form to NORA, you will receive a confirmation email from us.

Ordering your products

We will send you a new NORA Order Form when your product list changes. Every time a NORA Order Form is generated it will use your current product list so will always be up-to-date.
